

MARY SHAUGHNESSY SECURES A DIVORCE FROM ISAAC TRUMBO

Picturesque Career of Former Candidate for Senate Recalled
by Second Wife's Suit—Other Divorce Cases
Heard at the Friday Matinee.

Mrs. Mary Shaughnessy was granted a divorce from her husband, Isaac Trumbo, by Judge Morse in the district court yesterday and was also given permission to resume her maiden name. Mrs. Trumbo brought suit on the ground of non-support, and in her petition asked for alimony. Since the suit was begun she has become satisfied that Trumbo is not in a financial condition to pay alimony, and the request for money was waived by her attorneys in court. The decree was not contested. Trumbo belonged originally in Utah. As a young man he went to California, where he amassed a fortune in mining. He married for his first wife a Miss Lydia Emma White, a member of a leading Salt Lake family. Wife No. 1 applied for and received a divorce several years ago. Soon afterwards, in the fall of 1900, Trumbo and Miss Shaughnessy, who was a society belle, were secretly married, much to the astonishment of Miss Shaughnessy's friends and to the ire of her father, who has been prominent in mining circles for many years.

Trumbo made the most spectacular campaign ever known in Utah for a United States senatorship. He helped in securing the admission of the state, and, so he said, was promised by the leaders of the Mormon church a seat in the senate for his services. He made a campaign of the state in 1895 with his wife, a talented elocutionist, and Lee Fairchild, the humorist. They did "stunts" and Trumbo himself did the heavy speaking part. The legislature declined to recognize Trumbo's claims and he was defeated. Later he threatened to sue the church for \$50,000 for services, but did not. After his political failure he returned to California, giving up the lease of the Garbo house, originally built by Brigham Young for his favorite wife, and intended to impress the buccolic legislators.

Other Cases Heard.

Ada Scovill was granted a divorce from Ernest Scovill. Intoxication and non-support were the grounds. Property in Springfield valued at \$600 was awarded to the wife. She is a resident of Brigham. Annie M. Jones was granted a decree of

separation from Isaiah Jones on the ground of cruelty. The evidence showed that the husband knocked her down repeatedly and falsely accused her of infidelity. She was awarded the custody of two children.

Joseph Poole and Carrie B. Poole were married in Des Moines, Ia., in November of 1901. Poole, who was the plaintiff in the divorce proceedings, proved that his wife, without cause, deserted him seven weeks after their marriage. He was granted a decree of separation. Ida Bashal, who was married to Harry Bashal, a plumber, on Nov. 6, 1905, told the court that her husband had deserted her and that he had not contributed to the support of herself and her son for more than a year. She heard from him last in Elko, Nev. In the letter he wrote from that place he said he intended to go to the Philippines, and Mrs. Bashal has no doubt that he did. She was granted the custody of the minor son.

Mrs. Dolly Angell, who lives in Dallas, Tex., will have nothing further to do with her husband, J. H. Angell. She told him when he called on her that he could not come into the house and that the best thing he could do was to go home and stand not upon the order of his going. He came to Salt Lake, where he brought suit for divorce. The divorce was granted. They were married in Greenville, Tex., on June 3, 1901.

Mabel H. Taylor was granted a divorce from William H. Taylor. They were married Dec. 27, 1885, but have not lived together for six months. She says her husband was drunk nearly all the while and could not eat his breakfast unless he had his "morning's morning."

Mabel Wagner was granted a divorce from Otto Wagner on the ground of desertion. They were married on June 21, 1893.

PARK COUNCIL SESSION

Laundryman Creates Sensation by Asking to Be Exempt From Taxation.

Park City, Sept. 4.—The members of the park council met in regular session last evening, and this being the first meeting of the month all outstanding bills were presented and ordered paid.

Mayor Wilson was in the chair, and after calling the meeting to order and the roll call of officers heard, the minutes of the previous session were read by the recorder and the same were accepted.

The following bills were next presented, and on motion of Deighton were ordered paid: Miscellaneous bills, \$2,164.11; city officers, \$177; police department, \$63.05; sprinkler, \$177; reports of city officers were next read and were as follows:

Treasurer's report: Balance on hand Aug. 1, 1908, \$2,577.21; balance on hand Sept. 1, 1908, \$2,703.38.

Recorder's report: Indebtedness Aug. 1, 1908, \$1,528.18; total indebtedness, \$1,236.32; outstanding warrants, \$6,064.18, the reports of the treasurer and recorder agreeing.

City justice's report: There were 27 cases before me during the month. Committed, \$120; sentence suspended, \$95; fines imposed, \$257.50; collected in cash, \$112.50.

City sexton's report: During the month of August there were 2 deaths, one adult, 1 child; one body shipped to Heber; one body shipped from Salt Lake, and one from Heber; 2 internments made in the city cemetery, and 1 in the Glenwood cemetery. Collected in cash and turned over to the treasurer, \$88.

Sealer of weights and measures' report: Number of scales tested and seals placed on same, 25; collected in cash, \$3.75.

The gentleman also reported having tested the milk and found it to be just up to the required standard. The inspector recommended that the flumes be flushed on

Park avenue between First and Fourth streets.

Reports were all accepted as read. Under the head of "other business" was read a communication from Dr. Bardeley asking for permission to dig up a portion of the street on Park avenue from his residence to the Washington school building for the purpose of laying a sewer pipe. Request was granted and the marshal was instructed to see that the road is put in good condition again after the work is completed.

Frank Keith asked to be made a member of the fire department, and as there were no objections registered by any of the council members he was appointed by Chief Morse.

James Briery, city scavenger, would like his salary raised and took this opportunity of asking for it, but as the city is now too far in debt there was nothing doing for the gentleman, and his communication was tabled.

The committee on city property instructed to examine the roofs on the city hall and city stable reported that the covering on both buildings was in bad condition and should be fixed up. A new roofing will be necessary for the stable building, while a little repairing on the city hall building is all that will be necessary at the present time. The estimated cost for the material and work on these two places will be about \$100. On motion of Wight and Peterson the marshal was instructed to have the work done.

The bill from the Wasatch Lumber company, to the amount of \$29.33, was laid over at the last session, but was presented again last evening after having been corrected and was ordered paid on motion of Wight and Deighton.

The only startling bit of business during the whole meeting was started under the head of new business, when James Willis, proprietor of the C. O. D. laundry, appeared in person and asked that he be exempt from paying license, stating as his reason for not wanting to pay that there were several other persons in

KELSEY WANTS ENGINEERS TO WORK AS INSPECTORS UNDER HIS SUPERVISION

In view of the recent revelations which have been made concerning the personnel and methods of the inspectors of the board of public works, various schemes for making the service more efficient are being discussed.

The plan favored by L. C. Kelsey, city engineer, is the employment of experienced engineers for the places. He asserts that ten young engineers, active and intelligent, can do the work now being done by twenty-two inspectors, and do it more acceptably.

He would have the engineers attached to his department and under his personal supervision, and the argument he advances for this change is that the engineer who makes the plans and specifications for the work should see to it that they are carried out to the letter. Under the present system the board of public works, which is independent of the engineer, hires the men who are supposed to see that the plans are adhered to. This division of responsibility is said to be half the cause of the trouble.

In hiring inspectors the board gives little attention to the ability of the applicants. The compensation is \$3 a day. It often occurs that such men are detailed to watch the work of those who are paid by the contractors as high as \$10 a day for their expert services.

Mr. Kelsey figures that a saving could be made besides doing the work in a more acceptable manner. He says it would not be necessary to pay more than \$100 a month each to eight or ten competent men. They could be furnished with horses or other conveyances when necessary and go from one job to another. Under the present system sometimes as many as five men are detailed to watch a single job. That many patriots are now working on First South street.

stated that unless the alcohol was denatured the druggists could not sell the liquor without the license or prescription. Nothing further coming up, council adjourned to meet again on Thursday evening, Sept. 17.

The work of canvassing for the Summit and Wasatch county directory is going steadily on and it will be but a short time until the work is completed.

No more bother from flies, old sores or tender feet on your horses. Nature's Hoof Oil does it. 109 Atlas bldg.

Lagoon open till Oct. 6. Select dances Wednesday and Saturday; 50c includes everything. Special train.

TEETS' BARGAIN STORE SELLING OUT!

We are going to close out our entire stock at once. We will turn the room over to other parties in October. This is no humbug; we are simply going out of business. We have always sold you goods lower than any one in the west. Now we will sell them still lower — VERY MUCH LOWER. Come and look through and see for yourself that we are selling at prices below anything ever offered here. We don't claim the largest store in the city, but our prices are lower for the same goods than any big or little store in Utah.
